

**As soon as baby Jesus was born, He fixed his look at his Mama.
Secondly He looked at the one who would possess his Will.**

“My daughter,
when I went forth from the bosom of my Mama I fixed my look on my dear Mama.
I couldn't do than look at her.
Because there was in her
- the enrapturing Force of my Divine Will and
- the sweet enchantment of Beauty and
- the most radiant Light of my Fiat.

Eclipsing the pupil, I remained fixed in Her, who possessed - in virtue of Him - my same life.
In seeing my Life bilocated in Her I was enraptured.
And I could not move my look from the Celestial Queen.
Because my same Divine force constrained me to fix it on her.

The other look I fixed it on the one who should do and possess my Will.
They were two rings joined in one :
The Redemption and the Kingdom of my Divine Will are inseparable.

The Redemption had to prepare, to suffer, to do.
The Kingdom of the Fiat had to complete and to possess.
The one and the other are of highest importance.
Hence to the elect to which became entrusted the one and the other,
my Looks became fixed because there was my same Will that enraptured my pupil.

Why do you fear if you have the Look of your Jesus that always
- looks at you,
- defends you,
- protects you?

If you might know what it means to be looked at by Me, you would not fear anything more.”
