

**The Redemption and the fulfillment of my Will are two unique and similar Missions! They hold each other's hand.
The accomplishment of this Mission will be the crowning of all Our Works.**

Just as **my Celestial Mother**, true depository of the goods of Redemption, is generous with whomever wants of them,

so **will this second mother be generous** in making known to all

- the deposit of my teachings,
- the sanctity of it and
- the good that my Divine Will wants to give,
- how My Will lives unknown in the midst of creatures, and
- how, from the beginning of the creation of man, It years, It prays, It supplicates
- that man return to his origin – that is, into my Will - and
- that the rights of Its sovereignty over creatures be given back to My Will.

My Redemption was unique, and I made use my dear Mother in order to carry It out.

My Will also is unique, and I was to make use of another creature

- and placing her as though at the head,
 - and forming the deposit in her,
- she was to serve Me

-to make my teachings known and

-to fulfill the designs of my Divine Will.

So, where is this exalting you too much? Who can deny

- that *the Redemption and the fulfillment of my Will are two unique and similar Missions!*
- They hold each other's hand.

My Will will make

- the fruits of Redemption be completed, and
 - the rights of Creation be given back to Us,
- placing the seal on the purpose for which all things were created.

This is why **this Knowledge of the Mission of Our Will** is so important to Us.

Because nothing else will do so much good to creatures as It will do.

It will be the fulfillment and the crowning of all Our works.
